## SBM Holdings Ltd

SBM Holdings Ltd ('the Group') is pleased to present its interim unaudited condensed financial report for the nine months ended 30 September 2017.

The interim unaudited condensed financial report has been prepared in accordance with the Bank of Mauritius Guidelines on Public Disclosure of Information and IAS 34 - Interim Financial Reporting. The report has also been prepared based on those accounting policies applied in the preparation of the audited financial statements for the year ended 31 December 2016 and the Group and the Company have adopted all new standards and interpretations which are effective as from 01 January 2017.

## Operating Results

The Group's operating income increased from MUR 4,971 million for the nine months ended 30 September 2016 to MUR 5,494 million for the corresponding period ended 30 September 2017, mainly on account of increase in treasury income and interest earning assets. However, the Group's profit after tax decreased from MUR 1,995 million to MUR 1,864 million over the same period. This was due to an increase in portfolio provision of MUR 396 million, reflecting an increase in the net advances book by nearly MUR 28 billion, incremental costs of MUR 275 million from the new IT system, higher HR costs of MUR 189 million and impairment of equity investments of MUR 147 million. However, this was mitigated by an increase in operating income of MUR 523 million and lower taxation of MUR 171 million. The cost to income ratio increased from $38.63 \%$ for the nine months ended 30 September 2016 to $44.83 \%$ for the period under review.

Net interest margin decreased from $3.12 \%$ for the period ended 30 September 2016 to $2.77 \%$ for period ended 30 September 2017, largely due to lower return on advances from $6.66 \%$ to $5.59 \%$ resulting from declining return on advances on account of increasing competition and low credit offtake caused by continued excess market liquidity. Non interest income rose from MUR 1,670 million to MUR 1,955 million over the same period mainly on treasury business. Overall, the earnings per share decreased from MUR 0.77 for the period ended 30 September 2016 to MUR 0.72 for the period ended 30 September 2017.

In line with the Group's strategy to build scale, total assets grew substantially by $31.6 \%$ from MUR 146.90 billion as at 31 December 2016 to reach MUR 193.31 billion as at 30 September 2017. This increase in total assets is due mainly to an increase of MUR 27.60 billion in net loans and advances to non-bank customers, of which advances to Segment B accounted for MUR 17.41 billion. Deposits from non-bank customers increased by MUR 38.97 billion over the same period.

The capital base and equity of the Group stood at MUR 24.98 billion and MUR 25.16 billion respectively as at 30 September 2017 as compared to MUR 24.03 billion and MUR 23.80 billion respectively as at 31 December 2016.

The Group's capital adequacy ratio (CAR), Tier 1 capital ratio and common equity Tier 1 capital ratio decreased to $20.54 \%, 16.23 \%$ and $16.23 \%$ respectively as at 30 September 2017 from $25.70 \%, 19.90 \%$ and $19.90 \%$ respectively as at 31 December 2016, reflecting a more effective use of capital. These ratios, calculated as per Basel III requirements, are well above the minimum regulatory limit of $11.125 \%$ for CAR, including provision for Domestically Systemic Important Banks (D-SIBs) and Capital Conservation Buffer.

## Outlook

The Group has continued to make progress in respect of its 5-year strategy. The quarter under review was marked by the issue and listing of Afreximbank Depository Receipts, a first of its kind in Africa, with SBM acting as arranger and depositary. The Group is also in the process of conducting a due diligence of Chase Bank (Kenya) Limited (In Receivership), with the objective of acquiring carved out assets and liabilities, subject to shareholder, regulatory and other approvals. Should the deal go through, this should enhance SBM Kenya's profile on the market in line with the Group's ambition to become a Tier 1 player in the medium to long term. We are also awaiting the Reserve Bank of India's final approval for implementation of a wholly owned subsidiary in India, which would help expand the network and consolidate the business. Together with the projected increase in cross-border activities, as well as wealth management and investment banking, the overseas expansion initiatives should support diversification of the revenue base and improve returns, in spite of the cost buildup linked to the IT system and investment in human capital.

SBM Holdings Ltd is finalising the appointment of the Group CEO, which should further support and drive the implementation of the diversification strategy.

With the business momentum in the last quarter, the Group is expected to achieve marked improvement in projected results for the financial year.
