SBM Bank (Mauritius) Ltd ('the Bank') presents its abridged audited financial statements for the year ended 31 December 2020. The audited financial statements have been prepared in accordance with International Financial Reporting Standards and the Bank of Mauritius Guideline on Public Disclosure of Information.

#### **Operating Results**

The Bank achieved a net profit of MUR 1.45 billion for the year 2020 compared to MUR 500 million (after prior year adjustment of MUR 50 million) for 2019 despite the challenging operating environment characterised by the high level of uncertainty following COVID-19 outbreak. This increase was mainly on account of a significant rise in the non-interest income from MUR 2.28 billion for the year 2019 to MUR 2.94 billion for the year 2020 driven by the Bank's treasury management operation which resulted in strong gains during the year.

The results for 2020 demonstrate the Bank's strong fundamentals and robust performance as evidenced by the MUR 8.67 billion operating income registered for the current year against MUR 8.07 billion for 2019. The Bank managed to maintain a similar level of net interest income of MUR 5.7 billion despite the decrease in the key repo rate. The Bank continued its rigorous cost containment drive resulting in a decrease of MUR 402.78 million in non-interest expense for the year under review. This led the Bank to keep its cost to income ratio at 35.27% for 2020 compared to 42.88% for 2019.

Throughout 2020, the Bank continued to ensure it is an important economic player supporting the SME, retail, and corporate segments in line with the various COVID related measures announced by the Bank of Mauritius. Management has also proactively reviewed the Bank's portfolios and taken adequate provisions in line with the accounting standards.

Total assets grew to MUR 229.28 billion from MUR 209.92 billion as at 31 December 2020, registering an increase of 9.22%. This growth was mainly on account of maintaining a higher portfolio of investment securities at the reporting date from MUR 73.46 billion as at 31 December 2019 to MUR 93.34 billion at 31 December 2020. The Bank continues to scale down its cross border risk appetite as a strategic risk containment measure. The loan book witnessed an increase of MUR 3.72 billion to reach MUR 110.79 billion as at 31 December 2020. The Bank's strategy in the short to medium term remains to raise cheaper sources of funding by increasing its deposits book and total deposits of the Bank stood at MUR 191.12 billion as at 31 December 2020.

#### **Capital**

The Bank comfortably met the regulatory capital requirements for Domestic-Systemically Important Banks. Shareholder's equity increased to MUR 19.80 billion as at 31 December 2020 from MUR 18.07 billion as at 31 December 2019. With a tier 1 capital base of MUR 15.80 billion, the Capital Adequacy Ratio (CAR) stood at 15.94% and the tier 1 capital to risk weighted assets ratio moved to 14.28%. Return on equity for 2020 improved to 7.68% compared to 2.81% for 2019.

#### **Economic Outlook**

Following unprecedented contraction rates in sectoral and macroeconomic output during 2020, 2021 is expected to be a year of recovery driven by widespread vaccination campaigns and phased opening of borders, albeit not yet to pre-pandemic levels as significant challenges remain to be dealt with.

In the wake of the resurgence of local cases of contamination of the novel coronavirus, authorities have extended measures to provide financial support to individual and corporate players in the economy. While this is expected to cushion the impact of the resurgence on the operating environment, interest rates, exchange rates and asset quality will likely remain pressured until recovery takes a firmer hold, which also depends on the recovery of the economies of our key trade partners. Against this background, the Bank remains focused to execute its revamped strategy around technology, innovation and customer service to better serve its customer needs and prepare for a potential recovery.
