

CAREER OPPORTUNITIES

SBM is a leading financial services group in Mauritius, with a growing presence in the region, namely in Kenya, India and Madagascar. We serve a client base of more than 875,000 across the corporate, retail and high net worth segments and we provide adapted financial solutions supported by multi-channel capabilities within a universal banking model. The strategy of the Group revolves around modernisation and diversification of its offering, expansion of its markets, enhancement of capabilities prominently with respect to human capital, and effective risk management.

Our employees – currently more than 2,500 across the Group – are at the heart of our growth strategy. In our quest to be the employer of choice, we are laying increasing emphasis on developing and nurturing talent. SBM aims to become a reference in creating talent for a smarter tomorrow.

Open your door to success by joining us in the following challenging position:

Assistant Dealer – Financial Markets Division

Job Purpose:

The Assistant Dealer will be responsible to assist the dealers on the different desks of the Financial Markets Division to generate revenue for the Bank. The job incumbent will be called upon to abide by established procedures, aiming at achieving highest audit rating.

Key Responsibilities:

- Assist dealers in preparation of FX market reports, terms sheets and relevant documentation for derivatives-based products
- Maintain MIS on Financial Markets Division figures and day to day operations
- Assist in the preparation and delivery of presentations on Financial Markets Products both to internal and external stakeholders
- Build relationships with internal counterparts such as Relationship Managers and Retail Units and leverage on such relationships to best serve clients
- Work closely with colleagues to identify clients' needs across asset classes, namely FX, Rates, Commodities and Credit
- Ensure high level of service standards, including high level of ethics and integrity in line with SBM Values
- Perform any other duties as may be required

Qualifications, Experience & Skills:

- University degree in Finance, Financial Mathematics or Financial Engineering or equivalent quantitative degree
- Experience in relevant field will constitute a definite advantage
- Excellent analytical and technical skills
- Excellent organizational, communication & interpersonal skills
- Capability to work in a fast-paced, dynamic and result-oriented environment
- Ability to perform under pressure and be self-motivated
- Solution provider and positive attitude
